NAVIN VP

LEAD ENGINEER | SOFTWARE ENGINEERING | DATA AUTOMATION

Chennai, Tamil Nadu • +91 9524116210 • naviin.vp@gmail.com • LinkedIn Profile

PROFESSIONAL PROFILE |

Software Developer & Technical Lead with 7+ years of experience in data automation, web content transformation, healthcare systems, and backend workflow automation. Experienced in scalable solutions across RCM platforms, e-commerce data ecosystems, and financial market intelligence. Strong in bot development, data pipelines, insurance eligibility workflows, production support, and cross-functional delivery.

CORE CAPABILITIES |

Healthcare Systems RCM workflows • HIPAA 834/835/837 • Eligibility automation • Claims support	**Automation & Data** Web crawling • Python/Perl bots • Data pipelines • Parsing • Validation	**Engineering Delivery** Agile/Scrum • Production support • Deployment workflows • Cross-functional collaboration

PROFESSIONAL EXPERIENCE |

Lead Engineer I | Citiustech Healthcare

Jun 2025 – Aug 2026 • Chennai

Project: Rules 2.0 Migration - Athena Healthcare

- Migrated Perl-based healthcare rules to standardized Java DMN models, supporting HIPAA 834/835/837 claims automation and audit workflows.
- Performed manual and automated validation to ensure data integrity, compliance, and controlled deployment.
- Collaborated with analysts and engineers, mentored teams on DMN usage, and delivered migration milestones using Agile/Scrum.

Tech: Perl, Python, Java DMN, Linux, JIRA, VS Code, Perforce, Bitbucket, Git, **Claude**

Technical Lead I | Citiustech Healthcare

Dec 2024 - Jun 2025 • Chennai

Project: Front Desk Support (FDS) - Athena Healthcare

- Enhanced RCM workflows for patient detail management and insurance eligibility, enabling faster and more accurate onboarding.
- Resolved critical production issues affecting claims and eligibility and improved release stability through rollout toggles.
- Partnered with stakeholders to analyze issues, prioritize changes, and deliver HIPAA-compliant improvements.

Tech: Perl, Python, Linux, JIRA, VS Code, Perforce, **Copilot**, Bitbucket, Confluence, Git , **Windsurf**

Senior Software Specialist | Mobius Knowledge Services

Feb 2023 - Nov 2024 • Chennai

Project: X-DAS Platform

- Built custom web crawlers for structured data extraction across leading e-commerce, banking, and stock-exchange platforms.
- Developed Python bots on Linux for automated monitoring and harvesting; managed logs and cache storage in AWS S3.
- Maintained end-to-end workflows for price tracking, search visibility, and performance analytics.

Tech: Python, Ubuntu, WinSCP, PuTTY, AWS S3, FileZilla, **ChatGPT**

Senior Software Engineer | Mobius Knowledge Services

Feb 2022 - Jan 2023 • Chennai

Project: ICIS Outages

- Designed automation tools for content extraction across chemical, energy, and fertilizer sectors in Europe.
- Built scripts to capture outage and capacity data for market visibility and delivered structured updates through reporting pipelines.
- Resolved site changes and script interruptions to maintain continuity and reduce downtime.

Tech: Python, Pandas, SQL, HTML, JSON, CSV, Excel, PDF, FTP

Data Engineer | Dataweave Analytics

Sep 2021 - Jan 2022 • Chennai

Project: Copal - Colgate-Palmolive Data Pipeline Management

- Designed and optimized data pipelines for product, SKU, and marketing content extraction.
- Automated ingestion, monitoring, cleansing, standardization, and exception handling for reliable analytics.
- Collaborated with stakeholders to align extraction logic with evolving data and reporting requirements.

Tech: Python, SQL, HTML, JIRA, Git, Linux

Senior Software Engineer | Mobius Knowledge Services

Feb 2021 - Aug 2021 • Chennai

Project: ICIS

- Developed Perl automation scripts to collect pricing and trend data from petrochemical, energy, and fertilizer websites.
- Enhanced real-time parsing and database uploads and added error handling for changing website structures.
- Documented tools and processes to support team-wide knowledge sharing.

Tech: Perl, SQL, HTML, FTP

Software Engineer - L2 | Mobius Knowledge Services

Apr 2020 - Jan 2021 • Chennai

Project: Cedarose

- Engineered multilingual data pipelines for structured business and financial content across Arabic and non-English websites.
- Developed crawling scripts with encoding and character handling and automated backups, scheduling, and validation.
- Served as client liaison with weekly project and delivery updates.

Tech: Perl, SQL, HTML, FTP, SVN, Web Crawlers

Software Engineer - L1 | Mobius Knowledge Services

Nov 2019 - Mar 2020 • Chennai

Project: Geolytics

- Built Perl scripts to extract restaurant and vendor listings from major food-delivery platforms.
- Implemented anti-blocking logic and maintained deliverable tracking to support data accuracy and timelines.

Tech: Perl, SQL, FTP, HTML

Trainee Software Engineer | Mobius Knowledge Services

May 2019 - Oct 2019 • Chennai

Project: TripAdvisor

- Developed custom scripts to collect restaurant data using dynamic client filters and improved pagination, layout, and language handling.
- Coordinated with QA and delivery teams to support validated dataset handover.

Tech: Perl, SQL, FTP

Internship Student | Mobius Knowledge Services

Mar 2019 - May 2019 • Chennai

Project: Chain Store Guide (CSG)

- Supported lead generation by collecting store data across the US and Canada and assisted with bot development, debugging, and data enrichment.

Tech: Perl, Regular Expressions, SQL

TECHNICAL SKILLS |

Programming & Data Python, Perl, SQL, Pandas, Regular Expressions, NumPy	**Healthcare & Rules** Java DMN, HIPAA 834/835/837, RCM workflows
Cloud & DevOps AWS S3, Jenkins, Git, Bitbucket, Perforce	**Web & Formats** HTML, JSON, XML, CSV, FTP, PDF, Web Crawlers
Tools & Collaboration JIRA, VS Code, Windsurf, Claude, Bruno, Copilot	**Linux & Utilities** Linux/Ubuntu, PuTTY, WinSCP, FileZilla, Excel

EDUCATION, LANGUAGES & RECOGNITION |

Education: B.Tech - Information Technology | Muthayammal Engineering College, Rasipuram | 2019 | GPA: 70

Languages: Tamil, English

Recognition: Going the Extra Mile (GEM) Award - 2020; Going the Extra Mile (GEM) Award - 2023
